The RD FRESH "FOOD INSURANCE" QUIZ

1. What is the primary purpose of the RD Fresh program in our kitchen?

- A) To make the fridge smell fresh.
- B) To act as "Food Insurance" by extending self-life and reducing waste.
- C) To help our Food Stay Fresher Longer.
- D) All off the above

2. What is the name of the natural gas that RD Fresh minerals absorb to stop food from rotting?

- A) Oxygen (O_2)
- B) Carbon Dioxide (CO_2)
- C) Ethylene Gas (C_2H_4)

3. True or False: RD Fresh can help our refrigeration units run more efficiently and use less energy.

- ☐ True
- ☐ False

4. Which of these is a "Kitchen DO" for the RD Fresh units?

- A) Hang wet towels on the frames to dry them.
- B) Keep the area around the panels clear for airflow.
- C) Spray them with degreaser once a week.

5. How does RD Fresh prevent "flavor transfer" (like onions making the butter taste weird)?

- A) It releases a strong perfume.
- B) It traps odor-causing particles and moisture in the mineral mix.
- C) It physically separates the food items.

6. What happens to the mineral packets when they are finished?

- A) They are thrown in the trash.
- B) They are sent to a hazardous waste facility.
- C) They are recycled as 100% natural fertilizers for the planet.
